4. Even after my explanation, they refused to help me. (Compound)
5. When I went to college, I was given a room of my own. (Simple)

(D) Use the following idioms/phrases in your own sentences.

5x1=5

1. a stumbling block
2. face the music
3. back to square one
4. at the eleventh hour
5. Keep one's fingers crossed

(E) Read the following passage and answer the questions.

5x1=5

This journey was indeed an astonishing adventure. The young Swami went into it at random with his eyes shut. He had heard vaguely of a Parliament of Religions to be opened some day somewhere in America; and he had decided to go to it, although neither he, nor his disciples, nor his Indian friends, students, pundits, ministers, or Maharajas, had taken any trouble to find out about it. He knew nothing, neither the exact date nor the conditions of admission. He did not take a single credential with him. He went straight ahead with complete assurance, as if it was enough for him to present himself at the right time - God's time. And although the Maharaja of Khetri had taken his ticket on the boat for him, and despite his protests had provided him with a beautiful robe that was to fascinate American idlers no less than his eloquence, neither he nor anybody else had considered the climatic conditions and customs; he froze on the boat when he arrived in Canada in his costume of Indian pomp and ceremony.

Contd..2..

1. What was an astonishing adventure?
2. Who is talked about in the passage?
3. What had he heard vaguely?
4. Who had taken his ticket on the boat?
5. Why did he freeze on the boat when he arrived in Canada?

(F) Read the following passage and answer the questions.

5x1=5

Yoga is an ancient practice from India that helps keep the body strong and the mind calm. It began thousands of years ago, and even today it is followed by millions of people across the world. Yoga includes simple body movements, breathing exercises, and short meditation. These activities improve the flow of oxygen, make the muscles flexible, and keep the spine straight. For students, yoga is very helpful because it reduces stress, especially during exams and busy school days.

Many schools now include yoga in their morning routine because even ten minutes of practice can make students feel fresh and active. Exercises like Surya Namaskar strengthen the whole body, while powerful pranayamas (breathing techniques) like Anulom Vilom and Bhramari help improve physical and mental health. Yoga also improves concentration, which helps students listen better in class and remember what they study.

1. Why is Yoga practised?
2. What includes Yoga?
3. Why is yoga very helpful for students?
4. What exercises strengthen the whole body?
5. How does yoga help improve physical and mental health?

#### SECTION-B (Marks: 60)

Answer the following questions.

II. Answer either (A) or (B) of the following.

6x1=6

(A) Write one-word substitutes of the following.

1. One who can speak two languages ( )

(5x1=5)

1. / tʃaɪld /
2. / lɑːbrəri /
3. / kɒlɪdʒ /
4. / nætʃrəl /
5. / 'fɑːðə(r) /

(D) Find the rightly-spelt word in each of the following sets of words

(5x1=5)

- |                |           |            |           |
|----------------|-----------|------------|-----------|
| 1. acheeve     | achieve   | acchiev    | echiev    |
| 2. calender    | calander  | calendar   | calundure |
| 3. begineening | beginning | beggeining | beginning |
| 4. arguement   | arguamant | argument   | arguemant |
| 5. coleegg     | colleague | collegue   | colleague |

Contd..2..

(E) Read the following textual passage and answer the questions.

(5x1=5)

For example, if one man has a weak digestion and requires only a quarter of a pound of flour for his bread and another needs a pound, both should be in a position to satisfy their wants. To bring this deal into being the entire social order has got to be reconstructed. A society based on non-violence cannot nurture any other ideal. We may not perhaps be able to realise the goal, but we must bear it in mind and work unceasingly to near it. To the same extent as we progress towards our goal, we shall find contentment and happiness, and to that extent too shall we have contributed towards the bringing into being of a non-violent society.

1. If one man has a weak digestion, what does he require?
2. What has got to be reconstructed as per the above passage?
3. Why cannot a society nurture any other ideal?
4. If one is unable to realise the goal, what one must bear in one's mind?
5. What shall we find, as we progress towards our goal?

(F) Read the following passage and answer the questions.

(5x1=5)

A rather interesting legend surrounds the origins of Aranmula Kannadi, which begins 400 years ago. At the time, the chief priest of the Aranmula Parthasarathy Temple, who was a great patron of arts and crafts brought a few families of *Kannans* or bronze casters from Tamil Nadu's Tirunelveli district. Their task was simple – to make bell metal vessels for the temple. However, the *Kannans* created an alloy that resembled silver, but when polished, it shone and reflected the world around just like a mirror. This was seen as a magic of the divine. This wondrous alloy was offered to the temple deity and was soon included among the *Ashtamangalyam* – the eight auspicious articles used in religious ceremonies. The mirror offered to the deity is till date referred to as *Kannadi Bimham* (idol of mirror).

1. Who was a great patron of arts and crafts?
2. From where the bronze casters were brought?
3. What was their simple task?
4. Where were the eight auspicious articles used?
5. Find out the word from the above passage which means 'appear'.

Section-B (Marks: 60)

Answer all the questions.

(1x6=6)

II. Answer either (A) or (B) of the following.

(A) Build a neat paragraph in about 100 words using the following hints:

Enjoy fiction most – novels and short stories – love romances and thrillers – long hours reading – science fiction not interesting – dull – also enjoy travelogues, biographies, real life adventures – read newspapers, magazines regularly to keep myself informed – to pass time when no new book.

(Or)

(B) Write an essay on "The proudest moment of your life" in about 100 words.

Contd..3..

III. Answer either (A) or (B) of the following.

(A) Write a letter to your sister about your future plan of action after the graduation.  
(Or)

(B) Make 'notes' on the following passage and suggest a suitable title.

The origins of Durgi Stone Carvings can be traced back to the 15th century to a prominent Buddhist site known as the Nagarjuna Konda (Hills). Here, it is believed, a group of 300 artisans began carving Buddha statues and several idols and stupas linked with Buddhist practices. Favours soft limestone to the expensive granite, sculptors carved idols from the Sudda Rai lime stone available only in the Durgi region a practice that has been followed by each generation since. What one witnesses in Durgi are examples of artistic finesse in sculptures that can move souls with the emotions they exude. Peaceful Buddha statues are still popular in the region, bringing tranquillity to all who lay their eyes on them. Artisans draw inspiration from all they have – their mind, their connections to mythological spirituality, and even real-life experiences.

(3x8=24)

IV. Answer any **three** of the following essay answer questions.

- A. According to Gandhiji, what is meant by equal distribution?
- B. How do books fail to convey useful knowledge?
- C. How are the sins of youth inherent in its virtues?
- D. According to Swami Vivekananda, what is the root cause of people's miseries?
- E. What is the Professor's opinion on wasting time?

(3x8=24)

V. Annotate any **three** of the following.

- A. O wild West Wind, thou breath of autumn's being,  
Thou, from whose unseen presence the leaves dead
- B. That piece a wonder, now; Fra Pandolf's hands  
Worked busily a day, and there she stands.
- C. How vainly men themselves amaze  
To win the palm, the oak, or bays,
- D. Like a huge Python, winding round and round  
The rugged trunk, indented deep with scars,
- E. The exulting shout that best proclaims  
The deeds which heroes dare?

**(New)**

Time: 3 Hours)

(Max. Marks: 60

(B.Voc. A&T.EDP Marks: 40

(Answer the following questions in the serial order from I to V)

**Section A (Marks: 3x10= 30)**

I. Answer any **three** of the following questions:

- (a) Develop a neat paragraph in about 100 words using the following hints: (1x10 = 10)  
Fiction - novels and short stories-love romances and thrillers-long hours reading science fiction not interesting-dull-also enjoy travelogues, biographies, real-life adventures-read newspapers, magazines regularly to keep myself informed-to pass time when no new book

- (b) Read the following passage and make notes. Suggest a suitable title. (1x10=10)

In today's rapidly evolving world, one of the most significant issues for students is the rise of artificial intelligence (AI) in education, a development that brings remarkable opportunities as well as serious challenges. AI-powered tools are being integrated into classrooms and even used by students outside school to personalize learning, provide instant feedback, automate routine tasks, and help identify areas where a student might struggle. According to recent research, students are not only using these tools but becoming more aware of how AI is influencing their learning and everyday lives. However, with these technological advances come critical ethical and practical concerns. For example: How fair and unbiased are the algorithms being used in educational software? How do they affect the relationship between student and teacher? And what happens when students rely too heavily on AI rather than building their own problem-solving skills? For students in India and across the globe, this topic is particularly relevant: as jobs and academic demands change, adapting to new forms of learning and digital literacy becomes essential. Yet it also means students must develop strong critical thinking and ethical awareness, not just technical competence. In short, AI in education is more than a technological shift—it is reshaping what learning means and what skills will matter in the future. As we move forward, striking a balance between technological assistance and human creativity will be key to ensuring education remains meaningful, inclusive, and empowering for every learner. Furthermore, schools and universities must train teachers to use AI responsibly, ensuring that technology enhances but not replaces the human connection that lies at the heart of true education.

Contd..2..

IV. Annotate the following extracts:

(1 × 10 = 10)

(a) "Rituals give people a sense of community and belonging, and they help structure our lives in meaningful ways."

Or

(b) Prejudice and tolerance are theoretically different concepts, and not the opposite of each other. In fact, they coexist in most of us."

V. Annotate the following extracts:

(1 × 10 = 10)

(a) Where the world has not been broken up into fragments  
by narrow domestic walls;  
Where words come out from the depth of truth;

Or

(b) Whose service is my special dignity,  
And she my loadstar while I go and come.
