

PROF. M. RAMULU
Chairman, BOS

Lr.No.294 /Eco/UCA&SS/OU/2025

To
The Chairman
Telangana Council of Higher Education
Masabtank
Hyderabad

Date: 19-06-2025

Sub: TGCHE-UMS- Request for review and submit the revised syllabus for BA I year I & II semester - Reg.

Ref: Syllabus & Credits Committee meeting held on 11-06-2025 at TGCHE

Sir,

With reference to the subject cited above, I am herewith enclosing reviewed and proposed syllabus which is discussed at length in the various universities chairpersons of BOS of Telangana and faculty member of UG in the discipline of Economics, meeting organized by me at Department of Economics, Osmania University on 17-06-2025 at 11.00 am to 5.00 pm (participants list enclosed) and sending herewith with minutes of the BOS meeting, BA Economics Major – I course structure and syllabus for semester –I Micro Economics, Paper – I and semester II Macro Economics Paper II for your perusal and further course of necessary action at your end.

With warm regards.

Thanking you

Yours sincerely

Prof. M. Ramulu
Chairman
Board of Studies
Dept of Economics
Osmania University
Hyderabad-500 007

Copy to:

B.A. (ECONOMICS as Major) SYLLABUS
Semester - I
MICRO ECONOMICS
Discipline Specific Course - Paper - I

Module-I: CONSUMER BEHAVIOUR: Consumer equilibrium in Ordinal utility Analysis: (in Behavioral Economics, Nudge theory, Role of AI in consumer Decision-making, demand elasticity in digital markets, Networks effects on consumer demand, Price, Income and substitution Effects- on consumption.

Module-II PRODUCTION ANALYSIS: Concepts of production function- Automation and AI in production, sustainable production method, Returns to scale- scope of economies in digital platforms and production efficiency, Cobb-Douglas function- Role of Big data in production analysis.

Module-III: COST AND REVENUE ANALYSIS. Total cost, total fixed cost, total variable cost, average cost, average fixed cost, average variable cost, marginal cost and the relationship between average and marginal cost, Economies of scale- Digital and technological economies, Revenue concepts: total, average and marginal, relationship between Average & marginal revenue, Revenue models in digital markets (Subscription, Freemium, Dynamic pricing).

Module-IV: MARKET STRUCTURE: Imperfect competition- Monopoly: Equilibrium of a monopolist with price discrimination, monopoly power in Tech firms, Antitrust Laws & Digital market monopolies, Monopolistic Competitions-Brand Loyalty and consumer psychology, social media, Oligopoly- collusion in Digital market places, Duopoly-Platform competition (Google vs Apple, Uber vs Lyft) Digital market duopolies.

Module-V: ANALYSIS OF BUSINESS FIRM AND PRICING STRATEGIES: Objectives of business firm: ESG (Environment, Social & Governance) consideration in Business strategy. Profit concepts- Accounting and economic profit, break-even point, Role of AI in profit optimization, AI-based pricing models.

B.A. (ECONOMICS as Major) SYLLABUS
Semester – II
MACRO ECONOMICS
Discipline Specific Course - Paper - II

Module– I: Introduction Macro Economics – Concept of Circular Flow of Incomes, National Income Analysis: Concepts and Components – Methods of Measurement – Role of Big Data in accounting national income, Difficulties and Limitations in the Estimation of National Income .

Module – II: Theories of Income and Employment- Keynesian Theory of Income and Employment: Effective Demand, Behavioral Macroeconomics, Impact of Automation on Employment – Consumption Function: Average Propensity to Consume (APC) and Marginal Propensity to Consume (MPC) – Factors Determining Consumption Function – Savings Function: Average Propensity to Save and Marginal Propensity to Save.

Module– III: Investment & Interest: Types of Investment, Determinants of Level of Investment – Marginal Efficiency of Capital and Marginal Efficiency of Investment. Green Investment and sustainable capital, Impact of Digital Assets on Investment, Concept of Behavioral Finance in Investment decisions.

Module – IV: Supply of Money & Demand for Money- Functions and Classification of Money – Money Supply –CBDCs (Central Bank Digital currencies), role of FinTech –Fisher's and Cambridge Versions of Quantity Theory of Money. Mobile payments and Blockchain in Financial Transactions.

Module– V: Inflation & Business Cycles Fluctuations: Inflation- Concept, Types, Causes and Measurement- Role of AI in forecasting Inflation – Effects of Inflation – Measures to Control Inflation – Concepts of Phillips Curve, Deflation and Stagflation : Concept of Business Cycle Fluctuations in Digital Markets, Role of AI & Big Data in predicting recessions,

B.A. (ECONOMICS as Major) SYLLABUS (2026-27)

Discipline Specific Course-PAPER -III

**SEMESTER – III
STATISTICS FOR ECONOMICS**

Module I – I: Introduction to Statistics

Definition and scope of Statistics – Basic Concepts– Primary and Secondary Data, Cross-sectional and time series data Population, Census and Sampling Methods of Collecting Sample Random and Non-Random Sampling Methods.

Big Data Analysis :Use of SPSS ,R& Role of AI in Economic Data Collection,Real –time Data Analysis.

Module -II: Measures of Central Tendency and Dispersion

Measures of Central Tendency:Mean and Types of Mean, Median,and Mode, Properties of Good Averages – Comparison of Different averages
Measures of Dispersion – Absolute and relative Measures of Dispersion - Range, Quartile Deviation, Mean Deviation and Standard Deviation, Coefficient of Variation and Variance,Use of Excel &Python in Statistical Applications.

Module – III: Correlation & Regression _:

Correlation – Meaning, uses and types of Correlation: Methods of studying Correlation – Karl Pearson’s Correlation Co-efficient & Spearman’s Rank Correlation Co-efficient
Regression – Meaning of Simple &Multiple Regression.

Module – IV Index Numbers

Meaning,Uses and Difficulties in the Construction of Index Numbers Types of Index Numbers - Methods of Index Numbers: Laspayer, Paasche and Fisher. Concept of CPI (Consumer Price Index) WPI (Whole sale Price Index),IIP(Index of Industrial Production)

Module – V Analysis of Time-Series

Meaning, Uses and Components of Time Series Analysis –Secular,Seasonal,Cyclical and Irregular Variations .Methods of Measurement of Secular Trends Graphic, Semi-Averages and Moving Averages. Impact of Covid-19 on the Growth of Service sector in India.

B.A. (ECONOMICS as Major) (2026-27)

SYLLABUS

SEMESTER – IV

Discipline Specific Course-PAPER -IV: INDIAN ECONOMY

Module– I: Structure of the Indian Economy

Indian Economy at the time of Independence Changes in the Composition of National Income and Employment, Population: Size, Growth and Demographic dividend . Poverty and Unemployment in India: Concept, Causes and Remedial Measures. SDGs and India.

Module – II: Indian Agriculture

Importance of Agriculture– Trends in Agricultural Production and Productivity – Land Reforms – Green Revolution – Agricultural Finance – Agricultural Marketing – Agricultural Price policy -Food Security in India. Sustainable agriculture.

Module– III Indian Industry

Importance of Industrialization, Trends in Industrial Production . Industrial Policies of 1956 and 1991 and .Economic Reforms. Definition and Importance of Micro, Small and Medium Enterprises(MSMEs) ,Make in India.-Startup India.

Module– VI India's Service Sector

Concept, Components and Role of Service sector in Indian Economy –Infrastructure: Education, Health, Transport, Banking, Insurance and Information Technology.Introduction to Gig and Digital Economy.

Module – V: Planning and NITI Aayog

Achievements and Limitations of Five Year Plans in India .NITI Aayog: Structure and composition of NITI Aayog, objectives and Functions. Critical appraisal of NITI Aayog.
